An Online Booking System is software which allows a potential applicant to book and pay for an activity or service directly through website. That means from the moment an applicant decides they want to book to choosing a date, picking a time and paying for the booking, everything is handled online, greatly reducing the workload on your staff and removing the opportunity for double-bookings. An online booking system works all the time. This gives freedom to potential visitors to book a Baratghar/Community/Venue anytime they want. This will in turn give your staff more time to get other tasks done. With the booking system, a department with minimal staff can effectively manage several tasks simultaneously. They can approve/cancel/refund the booking of Baratghar/Community/Venue, and so on, all at the same time.

Key Feature of online booking system

1. An online booking system will reduce no-shows.
